

COMPANY POLICY

Sustainability Policy

MANAGING DIRECTOR Toby Green	ISSUED July 2026	REVIEW DATE July 2027	REFERENCE OF-POL-06
---------------------------------	---------------------	--------------------------	------------------------

01 Our Approach

This policy sets our standard for economic, ecological, and social responsibility. We want a sustainable, conscientious way of working with our clients, employees, and suppliers, one that gets the best out of how we cooperate and perform.

02 Health and Safety at Work

As an employer, we put real weight on good ergonomics and safety in the workplace.

03 Data and Identity Protection

We take real care over data protection and confidential information about our clients, employees, and suppliers, to protect their identity and privacy.

04 Environmental Protection, Energy, and Waste

We manage natural resources carefully and economically, to keep our environmental burden as low as possible and minimise waste. We follow our Duty of Care under the UK Waste (England and Wales) Regulations 2011 strictly: concrete waste is properly segregated, moved only by registered waste carriers, and documented with valid Waste Transfer Notes.

05 Ethical Principles and Modern Slavery

We build our business on loyalty, respect, transparency, and fair competition, free of corruption and exploitation. We oppose discrimination of any kind, race, origin, religion, gender, sexual orientation, or age.

We take a zero-tolerance approach to modern slavery and human trafficking, and we strictly follow the UK Modern Slavery Act 2015.

06 Freedom of Association and Choice of Workplace

Employees can speak openly and respectfully with each other and with management about working conditions. Forced labour or trafficking has no place here.

07 Working Hours and Child Labour

Pay, benefits, working hours, and holiday all follow statutory requirements. We condemn child labour and comply with the law on minimum working age.

08 Continuous Improvement and Transparency

We keep improving on environmental protection, energy efficiency, health and safety, and social responsibility. Every employee is told clearly what their tasks, rights, and duties are.
